

Niagara AX Certification Technical Training

Visit Our Web Site @ www.columbustemp.com

This course is designed for the participants to gain the level of technical expertise necessary to effectively and efficiently design, engineer, and program projects using the Niagara AX Framework. Participants who successfully complete the certification lab will receive Tridium AX Certification.

Participants must have a laptop computer running WorkPlace AX software. Students are responsible for arriving with a computer that is properly set up prior to the beginning of class. CTC will gladly verify proper set up prior to the class.

Registrations will be accepted for all available classes on a "first come, first served" basis. Payment must be received within 20 days of the class date or reservation will be forfeited. Purchase orders require an open account in good standing and a minimum order amount of \$25. Cancellations must be received at least 7 days prior to the date of the class to receive a full refund. Registration confirmations will be faxed shortly after the registration form is received. Reminders will be faxed a few days before the date of the class. All classes include a meal, unless otherwise indicated. Many class sizes are limited, so early registration is recommended. Columbus Temperature Control reserves the right to change any class information at any time.
